RESPONSE TO RESTRICTION REQUIREMENT

Responsive to the action mailed July 31, 2001, applicant elects the invention of Group I, drawn to the embodiment of claims 1-2, 4-6, 8-15, 22-23, and 26-27. Claims 22-23 and 26-27 were originally listed as belonging in Group II. However, after discussion with Examiner Parker, it was decided Claims 22-23 and 26-27 belong in Group I. The election is made without traverse.

Additionally, in the previous amendment submitted on April 19, 2001, Applicants made the statement on page 10 that "The present invention is directed toward a method of manufacturing an active matrix display device ..." However, the specification clearly discloses both active and passive matrix devices, and the above statement was referring only to a specific embodiment
